

Step 1: Paper & rubric

Empirical DID paper

11 identification dimensions

d_1 d_2 ... d_{11}

Flag, not judge

Audits evidence support,
not causal truth.

Step 2: ARGUS audit

Extract evidence

- queries
- spans
- relevance gate

Assess evidence

- reported?
- adequate?
- residual risk?
- uncertainty?

Localize risk

- risk per dimension
- highest-risk dimensions

Audit report

risk map · evidence · rationale

Step 3: Human annotation & offline evaluation

Human annotation

Reconciled gold labels

Pre-specified calibration rule

ARGUS-vs-gold evaluation

calibrates severity

expert review
